

Career API Integration:

Squarerecruit career API comprises List API to fetch published jobs and Apply job API for uploading candidates who applied for the respective job.

Note:** All the following API's are expected to be used/called from server side.

Following section provides the usage of List API's(GET) with different scenarios.

1. Get All Career Requisitions:

API URL : [https://](https://<tenant>.squarerecruit.com/api/requisition/external/platform/list/)

<tenant>.squarerecruit.com/api/requisition/external/platform/list/

Method Type :GET

Headers :Content-Type: application/json
Accept: application/json

Sample-response:

```
{
  "data": [
    {
      "uuid": "80886cb2-dbce-4cad-9807-d89af3dc45d0",
      "req_split_info": "1462843f-8a42-4b45-a4cc-500dc2ec9d3f",
      "id": "CI-2",
      "no_of_positions": 2,
      "experience": "1",
      "experience_max": "2",
      "country": "India",
      "state": "Maharashtra",
      "req_title": "Job Description",
      "post_data": "<div><br>HTML Content</div><div>",
      "location": "Navi Mumbai",
      "questionnaires": [],
      "created_at": "2022-07-26T04:51:05.313063Z",
      "business_unit": "practice area",
      "business_unit_uuid": "169a05ca-488b-40b0-bbdb-23ac648f838d",
      "bu_no": 1,
      "education_qualification": [
        {
          "education_degree": "Btech",
          "specialization": "IT"
        }
      ]
    }
  ]
}
```

```

        {"education_degree":"Mtech",
         "specialization":"IT"}],
    "hire_name": "Full Time, Contract",
    "description": "Requisition Description",
    "project_name": "Sub practice are"
  },
  {.....},
],
"success": true
}

```

2. Filter Based on Country/State/Location(City):

API URL :

<https://<tenant>.squarecruit.com/api/requisition/secure/external/platform/list/?country=India>

Key Name/Param : country

Method Type : GET

Headers :Content-Type: application/json
Accept: application/json

Description :pass **country, state, location** field values to the key **country** for filtering data based on different locations.

Sample-response:

```

{
  "data": [
    {
      "uuid": "80886cb2-dbce-4cad-9807-d89af3dc45d0",
      "req_split_info": "1462843f-8a42-4b45-a4cc-500dc2ec9d3f",
      "id": "CI-2",
      "no_of_positions": 2,
      "experience": "1",
      "experience_max": "2",
      "country": "India",
      "state": "Maharashtra",
      "req_title": "Job Description",
      "post_data": "<div><br>HTML Content</div><div>",
      "location": "Navi Mumbai",
      "questionnaires": [],
      "created_at": "2022-07-26T04:51:05.313063Z",
      "business_unit": "practice area",
      "business_unit_uuid": "169a05ca-488b-40b0-bbdb-23ac648f838d",
      "bu_no": 1,
    }
  ]
}

```

```

    "education_qualification": [
        {"education_degree": "Btech",
         "specialization": "IT"},
        {"education_degree": "Mtech",
         "specialization": "IT"}],
    "hire_name": "Full Time, Contract",
    "description": "Requisition Description",
    "project_name": "Sub practice are"
  },
],
"success": true
}

```

3. Filter Based on Bu_no(Practice_area):

API URL :

<https://>

<tenant>.squarecruit.com/api/requisition/secure/external/platform/list/?bu_no=1,2,3,4,5

Key Name/Param : bu_no

Method Type : GET

Headers :Content-Type: application/json
Accept: application/json

Description :pass **bu_no** field value to the key **bu_no** for filtering based on business unit

Sample-response:

```

{
  "data": [
    {
      "uuid": "80886cb2-dbce-4cad-9807-d89af3dc45d0",
      "req_split_info": "1462843f-8a42-4b45-a4cc-500dc2ec9d3f",
      "id": "CI-2",
      "no_of_positions": 2,
      "experience": "1",
      "experience_max": "2",
      "country": "India",
      "state": "Maharashtra",

```

```

    "req_title": "Job Description",
    "post_data": "<div><br>HTML Content</div><div>",
    "location": "Navi Mumbai",
    "questionnaires": [],
    "created_at": "2022-07-26T04:51:05.313063Z",
    "business_unit": "practice area",
    "business_unit_uuid": "169a05ca-488b-40b0-bbdb-23ac648f838d",
    "bu_no": 1,
    "education_qualification": [
        {"education_degree": "Btech",
         "specialization": "IT"},
        {"education_degree": "Mtech",
         "specialization": "IT"}],
    "hire_name": "Full Time, Contract",
    "description": "Requisition Description",
    "project_name": "Sub practice are"
  },
],
"success": true
}

```

Following section provides the usage of Apply job API.

5. Apply Job:

API URL :

<https://<tenant>.squarecruit.com/api/candidate/secure/career/page/quick-cv/>

Method Type : POST(**FORM-DATA**)

Headers : Content-Type: application/json
Accept: application/json

PAYLOAD :

Send Data as Form-Data

Payload_data:

cv_file: Any file choose from the system

req_split_info: 4295e6cd-e74f-4592-bb3d-ead0b6282204

job_post_uuid: c50b9395-153b-4a48-be98-7c12ea6ef2aa
first_name: TestFirstname
last_name: TestLastname
email: TestsadsdsdProfile5@yopmail.com
contact_number: 9999999
address1: Maharastra,
country: India
state: Maharastra
city: Pune
permanent_address: Addresss
dob: 2003-12-16
gender: 20
aadhar_no: 12344
pan_no: DLSKP30276
passport_no: ZFDHSJ123
years_of_experience: 1
relevant_experience: 1
current_employer: Self
notice_period: NP04
fixed_salary: 2345
variable_salary: 10
expected_salary: 435
cover_info_detail: Any information
current_last_employer_start_date: 2003-12-16
ip_address: 122.141.234
current_last_employer_end_date:2003-12-16

Field Name and Validations:

Field Name	is_mandatory	value_type
cv_file	True	File any doc, pdf
req_split_info	True	uuid

job_post_uuid	True	uuid
first_name	True	Character
last_name	True	Character
email	True	email
currency_code	False	Integer
contact_number	True	Character
address1	False	Character
country	False	Character
state	False	Character
city	False	Character
permanent_address	False	Character
dob	False	DateField

gender	False	Integer
aadhar_no	False	Character
pan_no	False	Character
passport_no	False	Character
years_of_experience	False	Integer
relevant_experience	False	Integer
current_employer	False	Character
notice_period	False	Character
fixed_salary	False	Integer
variable_salary	False	Integer

expected_salary	False	Integer
cover_info_detail	False	Character
current_last_employer_start_date	False	Date
ip_address	False	Character

current_last_employer_end_date	False	Date
--------------------------------	-------	------

Sample Output Response for success:

```
{
  data: {uuid: "5d06f508-1b35-4297-9515-b1edb1cc6cce", status: 10,
  questionnaires: [], }
  success: true
}
```

Sample Output Response for failure:

```
{
  success: false
}
```
